

The **Chamber Sustainability Program**, provided by Viridi, allows your business and home to go green through the use of Renewable Energy Certificates. A **Renewable Energy Certificate (REC)** represents the ownership of the green environmental attributes of 1,000 kWh of energy produced and pushed to the grid by a renewable resource like wind, solar, or hydro.

SIMPLE, PRACTICAL, AFFORDABLE SUSTAINABILITY

HOME

\$120

PER YEAR

An average US home uses a little under 12,000 kWh annually & would need about 12 RECs per year to "green up" their electricity usage.

BUSINESS

\$10

PER REC

Businesses can send their utility bills to chamber@viridi.eco and we will let them know how many RECs they need based on their usage.

EMPLOYEES

\$120

PER YEAR / EMPLOYEE

Attract and retain young, educated talent by offering RECs as an employee benefit. All we need is the number of employees participating.

Please fill out the next page and submit it to chamber@viridi.eco along with a recent electric bill copy and we will assist you in going green.
